Experience

Unified Mentors

Full Stack Developer

Mar 2025 - Sep 2025

Remote

Developed and deployed full-stack web applications using React.js, Node.js, Express.js, and MongoDB, improving overall UI/UX and performance.

Collaborated with a cross-functional team of designers and developers to build and maintain scalable and responsive web platforms.

Engineered and successfully deployed six full-scale projects, providing tangible deliverables throughout the internship.

Improved codebase quality by implementing modular architecture, version control (Git), and proper documentation.

Projects

E-commerce Website (QuickCart)

Technical Focus | Full-Stack MERN: Leveraged Next.js for both frontend and backend APIs. MongoDB/Mongoose: Database design for products, users, and orders. Clerk: Implemented secure, robust user authentication and authorization (customer/admin roles).

Personal Portfolio

React Components: Breaking the UI into reusable components (e.g., Header, Project Card, Resume Section). Routing: Implementing simple client-side routing (if applicable).
